Ameyama Sightseeing Farm

Ameyama Sightseeing Farm is located around a mountaintop and its height is 477 meters above sea level. This farm is run by farming families around the area. They are growing apples, kiwis, oranges, grapes, persimmons, and pears. Apple picking is especially recommended with the ownership system. You can enjoy different fruits through all seasons. Not only their fruits, but also the view from the mountain is great. When it is a fine day it is possible to see Awaji Island over the sea.

果樹や作物のオーナー制度ってご存知ですか？
Do you know about the Ownership System for fruits and crops?

The Ownership System at Ameyama Sightseeing Farm is available for apples, oranges, kiwis, pears, persimmons, and so on. If you're registered as an owner, the farm will take care of your fruits or crops. Of course you can visit your farm and look after them by yourself. This ownership is perfect for those who want to have their own farm, but their situation does not allow them. Fruits and crops all belong to owners. If you are interested, please contact Ameyama Sightseeing Farm.
